

Reverb driver based on
<https://ua726.co.uk/2012/07/08/tombolas-diy-spring-reverb-driver-circuit/>

There are 3 dials:

- Eq to change between the bass and treble balance
- Drive to determine how loud the reverb is
- Blend to determine the balance between the wet and dry signal mix

U1E
 TL074
 12V $\xleftarrow{4}$ V+ V- $\xrightarrow{11}$ -12V
